# **DC260**

**AEROSEAL®** 

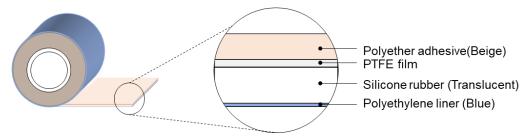

# PRODUCT DESCRIPTION

DC260, known as "AEROSEAL®", is a double-coated, differential pressure sensitive tape that utilizes a unique silicone rubber and polyether adhesive construction to protect against moisture penetration on flat or irregular surfaces in aerospace and transportation applications.

#### **FEATURES**

- Good adhesion on the polyether adhesive side and moderate adhesion on the silicone rubber side.
- Silicone rubber is cured, highly hydrophobic, and low durometer to allow for easy conformability and rework ability while also preventing moisture penetration and migration.
- Compressible construction allows for efficient sealing where gasket materials are needed.
- Available in multiple stockings and/or custom sizes.

#### PRODUCT CONSTRUCTION

#### **APPLICATION**

- A double-sided moisture barrier tape that will show its best performance when compressed but leaves no residue.
- Main uses include protecting areas against corrosion such as galleys, underneath floor boards, under lavatories, door sills, stringers, sealing access panels, etc.

### PROPERTIES AND SPECIFICATION

Properties		Imperial	Metric
Total Tape Thickness		60 mil	1.5 mm
Tensile Strength <sup>1)</sup>		66 lbs/in	230 N/20mm
Adhesion to Steel <sup>2)</sup>	Polyether adhesive side	10 oz/in	2.3 N/20mm
Water Vapor Transmission Rate <sup>3)</sup>		0.10 g/100 in²⋅ day	1.6 g/m²⋅ day
Weight		46 oz/yd <sup>2</sup>	1.6 kg/m²
Operating temperature		-65°F to 176°F	-54°C to 80°C
Government Specification		14 CFR 25.853 Appendix F Part 1 (a) (1) (IV)	

- 1) Test method: ASTM D1000
- 2) Peeling angle: 90°, Peeling speed: 12 in/min, Test condition: 74°F(23°C)
- 3) Test method: ASTM F1239

\*CAUTION: The above are typical values and should not be used in writing specifications. Customer is responsible to ensure product meets intended application requirements before approved for use.

RoHS

## SHELF LIFE & GENERAL STORAGE CONDITIONS

The general shelf life and storage conditions for this Nitto, Inc. product are as follows:

- Shelf life for this product is TWELVE MONTHS FROM DATE OF SHIPMENT.
- Best stored between 50°F-80°F / 10°C-27°C, 25-50% relative humidity; out of direct sunlight

#### PRECAUTION REMINDER

Surface should be clean, free of oil, moisture and dirt before applying. Pressure-sensitive adhesive tapes may require pressure by roller, hand or press when applying. Not doing so may affect the general properties and appearance. Please inspect your surface prior to application; this tape may not adhere well to extremely uneven or distorted surfaces. Please remember to allow adequate time for full adhesive strength.

#### **WARRANTY INFORMATION**

Unless Nitto agrees otherwise in a written agreement signed by Nitto, the warranty information and other terms of sale can be found in the Nitto Terms and Conditions of Sale in the legal section of <a href="https://www.nitto.com">www.nitto.com</a> and are hereby incorporated by reference.

#### **TECHNICAL SUPPORT**
