Terminal Strips for Panel / Chassis Mounting

Series 307-PC is WECO's equivalent to twin-row panel-mounted North American style barrier strips. They are molded of UL 94 V-0 self-extinguishing polycarbonate and available in 2 to 21 poles. The strips are fixed to the mounting surface using the molded mounting holes at each end of the strip.

Two versions are offered the 307-PCA which is supplied with two metric screws in each pole position and the 307-PCF, supplied with both a plain and a spring washer along with the clamping screw.

Each product has a "How To Order" area as well as a complete listing of UL and CSA approval specifications, available options and accessories.
