

CONNECTION WITHOUT LIMITS

**WECO**<sup>®</sup>

Superior MTBF

Footprint Reduction

Compact Design

## Consumer Goods Appliances

With the 308 series, WECO is now producing the successful Metalluk product series in 1953, thus closing the market gap.

The flat-plug distribution strips are used in a wide range of applications, such as, for example, In white goods, water heaters or mobile homes. Wherever high currents and voltages are applied and potentials are to be distributed in several places, these robust flat plug strips are the perfect product.

With different types of flat plug in several outgoing directions as well as the possibility of additional screw connections, the right variant is found for every application. With the 308 series, WECO offers an extremely high level of versatility and flexibility.

### VERSATILE DESIGN

- 1 to 16-pin versions
- Flat plug widths 6,3 and 4,8 mm for flat plug-in sleeves according to DIN 46247
- Flat plug versions with and without screw connection
- A plurality of flat plug assemblies and combinations
- Fast and secure access to the contacts
- Individual pole assembly according to customer requirements
- Fixed pole designations on the housing side on request
- Various housing materials, inter alia. Also meet the glow-wire test according to the domestic appliance model

### ADMISSION

- VDE and UL testing in the approval procedure

### MARKET SIGNIFICANCE

- Proven product series on the market, established by the former company Metalluk

ADAPTABILITY.  
RELIABILITY.  
PERFORMANCE.
