

06003-00001-00 Special Taper

PRODUCT INFORMATION

Product Description

The tesa® 06003-00001-00 Special Taper is a handheld tool for fast and precise application of foam tapes (eg. tesa® ACX^{plus}). It features anti-adhesion coated rollers and guiding parts for smooth and process stable application.

This device is usually adjusted to the customized profile with the right front wheel and required tape width.

It is also available with a liner rewriter to have the tape ready for immediate bonding of 2 parts.

Main Application

The dispenser is mainly used for exterior mounting application for tesa ACXplus but also suitable for any tesa foam tape in a variety of industrial applications.

06003-00001-00 Special Taper
